

State Department of Education

Mission, Vision, Values & Goals

Vision

All Idaho students achieve to their highest potential in an educational system that adapts to the needs of a changing world.

Mission

Through leadership and collaboration, the Department supports and promotes a system of public education that delivers relevant academic and life skills.

Values

We are a team of professional, knowledgeable educators guided by the principles of leadership, public service, accountability and efficiency. The Department is committed to creating a safe, achievement-focused educational environment that allows every child to learn every day and to graduate from high school as a life-long learner and good citizen.

Goals

To increase students' academic achievement in all curricular areas and civic, personal, and workplace skills.

To increase the number of qualified effective educators in Idaho's K-12 schools.

To increase the quality and accuracy of relevant data collection and reporting for informed decision making.

To increase the SDE's capacity to respond effectively and efficiently to the changing needs of public education.
